13th Multidisciplinary International Student Workshop (MISW 2022) Call for Papers

1. Workshop Purpose

Tokyo Tech will sponsor the *13th Multidisciplinary International Student Workshop (MISW 2022)*, mainly for the graduate students in School of Engineering, School of Materials and Chemical Technology, and School of Environment and Society in order to promote interactions across academic disciplines with overseas exchange students.

2. Workshop Outline

MISW 2022 will be held as a hybrid event on August 8-9, for the graduate students and exchange students including Asia Oceania Top University League on Engineering (AOTULE) students to encourage innovation across disciplines via a research-based workshop and promote cross-cultural understanding.

Participants are expected to present their own research or a related topic in oral or poster presentation format and attend all sessions at the workshop. To encourage high quality presentations, all presentations are evaluated and awards are given for the best presentations. The best presenters of approximately 10 Tokyo Tech graduate students will be selected and invited to attend the AOTULE Student Workshop, which will be held by National Taiwan University on 10-11 November, 2022. As there are many exceptionally talented students gathering from the Asia-Oceania area, it is a good opportunity for developing friendship, exchanging ideas and so on, through activities such as student workshop. Only graduate students, who attend MISW and are selected, are eligible to attend the AOTULE Student Workshop.

3. Workshop Discipline and Theme

Discipline : Engineering in general

Theme : Leading technology on sustainable development

4. Abstract Submission

Papers from all engineering fields focusing on advanced technology are welcome. Submit the Extended Abstract by e-mail; one page of A4 size, written in English, and PDF format. In this workshop, many young researchers from various engineering fields participate. Please try to make the contents clear so that participants from other research fields can also understand.

5. Venue

Ookayama Campus of Tokyo Tech (W9 building)

6. Application Procedure

1) Eligibility

Graduate students enrolled in School of Engineering, School of Materials and Chemical Technology, and School of Environment and Society, and exchange students are eligible. Applications from graduate students from other schools and undergraduate students from all departments may be accepted depending on availability within the workshop program (Note: only graduate students in School of Engineering, School of Materials and Chemical Technology, and School of Environment and Society will be the candidates for the AOTULE Student Workshop selection). Approval of the presentation and publication of the Extended Abstract by the student's advisor is necessary prior to submission.

2) Application Deadline

The application procedure consists of two steps, online Web application entry and online Web submission of the Extended Abstract as outlined below. The deadline for Web application entry is **5:00 PM of 1st of July**, and for Web submission of the Extended Abstract is **5:00 PM of 8th of July**. More information about the

application procedure can be found on the [MISW 2022 website](#) and below.

3) Application Procedure

(a) Access the [Online Registration Form](#) and fill-in all the items including English test score (TOEIC, TOFEL or IELTS) if English is your second language. The applicant does not have to send the score sheet. The score of two years ago (or more) is also effective.

(b) Prepare the Extended Abstract in MS Word after downloading the abstract template from the [MISW 2022 website](#) (File Name: MISW2022_template.doc). The abstract will be published in the pdf form on Tokyo Tech homepage. Please include both text and figures in a single page of A4 size and convert it into PDF file format. The file name of the extended abstract should be saved as described below.

- File Name: “Given name” + “_” + “Last name” + “.pdf”

- Example: Taro_Suzuki.pdf

(c) Submit the Extended Abstract from the [Online Submission Form](#).

(Contact information) Steering Committee of MISW2022: michinobu.t.aa-misw2022@ml.m.titech.ac.jp

7. Note

Workshop proceedings will be distributed as a pdf file with password, by compiling the extended abstracts as-received.
